

10.19 L.O. To describe your own planet.

My planet is called petal because it is a flower. It is boiling hot and it is right next to the sun. It is very fluffy and squishy with fluffy and squishy people on it. Flying pigs live on petal and even flying sheep. The planet is like a trampol^{ine} and the people bounce on it. There is a squishy ball pit and it is huge. The people live in bubble gum trees and they can eat the bubble gum. They drive in
