Dear Parent/Carer

18th March 2022

Re: Science Week

Next week is our annual Science week. Miss Hunter-Purvis, our Science Subject Ambassador, has lots of exciting events planned throughout the week.

We did have a drama/science workshop booked for every Learning Zone, however, the two people who were delivering the workshop have contracted Covid and therefore the workshops will have to be rearranged for another date.

However, we do have a session on our local Peat Bogs which will be delivered by the AONB. This will teach children how important the Peat Bogs are in capturing carbon and how they are equally as important for climate change as the Amazon Rainforest!

Each Learning Zone will spend the week focussing on a different environmental theme and each Class Teacher has events and activities organised to support their theme. The themes are as follows:

Opal & Amethyst – Food
Sapphire – Bees and pollination
Ruby – Marine life and coasts
Emerald – Climate Change
Diamond – Biodiversity and nature

On Friday 25th March 2022 in the afternoon we have a live link to Antarctica which will be very exciting. I am sure the children will have a fantastic week and will also learn a lot of interesting facts!

Yours sincerely

Mrs D Cross
