Dear Parent/Carer

27th April 2026

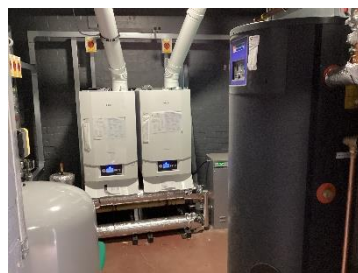

Re: New Boiler

I am delighted to confirm that our new boiler system was officially handed over last week following two months of work to remove and replace both the heating and hot water systems and the installation of a new Boiler Management System.

The work cost approximately £130,000 and was fully funded by our Trust. We are extremely grateful to them for funding this essential work.

When the new boilers were installed, I literally hugged one of them which sounds very sad but our old heating system has been the bane of my life for many years.

I am now confident that firstly, the heating will work and secondly that this system will save us money in the long term as it is highly efficient. It also means that our carbon footprint is reduced and the new environmentally friendly system will contribute to our Climate Management Plan.

Yours sincerely

Mrs D Cross
